INDEX TO VOL. 44

Baker, J.W., and M. Lashkarizadeh-Bami, On the representations of certain idempotent topological semigroups 245
Berglund, J.F., and N. Hindman, Sums of idempotents in ßN 107
Billhardt, B., On inverse semigroups the closure of whose set of idempotents is a Clifford semigroup 320
Billhardt, B., On a semigroup theoretic generalization of the Kalužnin Krasner Theorem and normal extensions of inverse semigroups 364
Bouziad, A., Continuité d'une action d'un semilattis compact 79
Bredikhin, D.A., Varieties of groupoids associated with involuted restrictive bisemigroups of binary relations 87
Breen, M., Principal ideals in the semigroup of binary relations on a finite set: What happens when one element is added to the set 129
Catino, F., and F. Migliorini, Magnifying elements in semigroups 314
Chandrasekaran, V.M., - see Loganathan, M.
Davenport, D.M., On power commutative semigroups 9
Easdown, D., and M.S. Putcha, The local semilattice of chains of idempotents 157
El-Qallali, A., Quasi-adequate semigroups II 273
Forouzanfar, A.M., Closed ideals in semigroups of continuous selfmaps 221
Geroldinger, A., and F. Halter-Koch, Realization theorems for semigroups with divisor theory 229
Halter-Koch, F., Finiteness theorems for factorizations 112
Halter-Koch, F., - see Geroldinger, A.
Hindman, N., - see Berglund, J.F.
Hippisley-Cox, S.D., Finite point compactifications of $(\mathbb{N},+)$ 396
Hippisley-Cox, S.D., On the structure of certain po-semigroups 213
Howie, J.M., Report on the conference on semigroups held at Oberwolfach in 1991 133
Hyndman, J., R. McKenzie, and W. Taylor, *k*-ary monoids of term operations 21
Kaďourek, J., On varieties of combinatorial inverse semigroups II 53
Kehayopulu, N., On left regular and left duo *poe*-semigroups 306
Kehayopulu, N., On prime, weakly prime ideals in ordered semigroups 341
Konieczny, J., On cardinalities of row spaces of Boolean matrices 393
Lashkarizadeh-Bami, M., - see Baker, J.W.
Leech, J., Normal skew lattices 1
Liang, J., - see Xio, T.
Lipscomb, S.L., Centralizers in symmetric inverse semigroups: Structure and order 347
Lipscomb, S.L., The alternating semigroups: Generators and congruences 96
Loganathan, M., and V.M. Chandrasekaran, Regular semigroups with a split map 199
Markowsky, G., Ordering D-classes and computing Schein rank is hard 373
Margolis, S., and J.C. Meakin, Inverse monoids and rational Schreier subsets of the free group 137

McKenzie, R., - see Hyndman, J.
Meakin, J.C., - see Margolis, S.
Migliorini, F., - see Catino, F.
Munn, W.D., Nil right ideals in inverse semigroup algebras 93
Nagy, A., *RC*-commutative Δ-semigroups 332
Pastijn, F., Book Review 271
Ponizovskiĭ, J.S., On a type of matrix semigroup 125
Putcha, M.S., - see Easdown, D.
San Martin, L., Nonreversibility of subsemigroups of semi-simple Lie groups . . . 376
Sen, M.K., *p*-congruences on *p*-regular semigroups 149
Sezinando, H., The cardinalities of the Green classes of the free objects in varieties of bands 164
Sezinando, H., The varieties of languages corresponding to the varieties of finite band monoids 283
Stephen, J.B., Contractive representations: A family of inverse monoids and semigroups and finite *R*-classes 255
